## BUYING GUIDE

**92** **Vineyard 7&8 2004 7 Cabernet Sauvignon (Spring Mountain); \$90.** Spring Mountain Cabs typically are hard in youth but not this one, to which all the techniques of early drinkability seem to have been applied. The tannins are here, bigtime, but so finely grained you can drink the wine tonight. Flavorwise, there's nothing unusual about the ripe cassis and oak flavors; what's distinctive about this Cab is its dignified balance and finesse. Drink now through 2014.
